1. Inventory & Spoilage Lifecycle Flowchart

1. **Harvest Influx Reception**
   Daily harvest weights automatically credited into Finished Goods upon staff logging.

2. **Cold Storage FIFO Tagging (4°C)**
   Organizes mushrooms by picking timestamp to guarantee oldest harvest ships first.

3. **Freshness Age Audit (>48 Hours)**
   If fresh mushrooms unsold at 48h, routes to dehydrator (10:1 dry ratio) or records wastage write-off.

4. **Raw Material Stock Replenishment**
   Receives straw bales, spawn bottles, and punnets; logs supplier purchase delivery.
